

Forager Brewery Mackie ProFX12v3 Soundboard Quick Guide

Getting Started

- Turn all volume sliders all the way down
- Turn on power (behind mixer)
- Turn on mixer (switch on back)
- Plug in microphones and instruments

Dialing in Sound

- Adjust gain (pre-amp) for each channel
- Sing/play and increase until the yellow light flashes occasionally

Monitor Levels

- Master: green knob labeled **AUX MASTER**
- Per channel: green **AUX knob**
- Output: **MON SEND** (¼" cable)
- Monitors should be set to **LINE (not MIC)**

Final Mix

- Set channel volume using sliders
- Ensure **L-R button is selected**
- Adjust main volume (**MAIN slider**)
- Typically stays around **-20 to -25**
- Ensure **L-R button is selected**

Final Notes

- This is a shared, simple setup designed for ease of use
- Staff can assist if needed
- Please keep volume at appropriate levels for the space
